rbs Bluelease

Formwork Oil

DESCRIPTION

rbs Bluelease is an extremely versatile high specification chemical release agent blended with highly active surfactants. The blend of highly active surfactants assist in reducing surface tension at the interface between the concrete and the formwork, ensuring that optimum release is attained hence achieving a high quality concrete surface finish.

ADVANTAGES

- Produces uniform, stain-free concrete.
- Protects timber against moisture ingress, thus extending the life of the formwork.
- Is completely versatile—can be used on timber, plywood, metal and plastic formwork.

APPLICATION

rbs Bluelease is supplied ready to use. A uniform thin film should be applied to the formwork using low pressure spray equipment with care being taken to avoid over application. For new and unsealed timber formwork pre-treatment is recommended with a second application prior to use—this will extend the useful life of the formwork and help to standardise surface absorbency.

TECHNICAL DATA

Appearance	Light brown liquid
Specific Gravity @ 15.6°C	0.87
Flash Point (PMCC)	102°C
Viscosity cSt @ 40°C	10.7
Coverage	18-30m ² per litre
Pour Point	<-20°C

HEALTH & SAFETY

When working with rbs Bluelease suitable protective clothing, eye/face protection and gloves should be worn. For further health and safety information, please refer to the relevant Safety Data Sheet.

PACKAGING

rbs Bluelease is available in 25 and 200 Litre containers. IBC's available on request.

STORAGE

rbs Bluelease should be stored under dry, frost-free conditions away from direct sunlight, under such conditions the shelf life is at least twelve months.

IMPORTANT NOTE

Whilst all reasonable care is taken in compiling technical data on the Company's products, all recommendations or suggestions regarding the use of such products are made without guarantee, since the conditions of use are beyond the control of the Company.

It is the responsibility of the customer to satisfy himself that each product is fit for the purpose for which he intends to use it, that the actual conditions of use are suitable, and that in the light of our continual research and development programme the information relating to each product has not been superseded.
