

# rbs Bluestrike CMO

Release Agent for Concrete & Steel

## DESCRIPTION

rbs Bluestrike CMO is an invert emulsion (ie. Water-in-oil emulsion) commonly known as "Soap Oil". It is an economical dual purpose mould oil in that it is suitable for both timber and metal based formwork providing an ideal release agent for ordinary day-to-day concreting.

## ADVANTAGES

- Easy to use.
- Low cost.
- Supplied ready to use.
- Suitable for both timber and metal based formwork.
- Not readily absorbed when used with plywood or timber formwork.
- Produces uniform, stain-free concrete surfaces.

## APPLICATION

- rbs Bluestrike CMO is supplied ready to use, a uniform thin film should be applied to the formwork using a brush, sponge or soft broom with care being taken to avoid over application.
- Under no circumstances should RBS Bluestrike CMO be spray applied.
- For new and unsealed timber several applications should be made prior to initial use.

## TECHNICAL DATA

Curing Efficiency	90%
Appearance	Pale amber liquid
Specific Gravity @ 15.6c	0.87
Flash Point (PMCC)	40°C
Viscosity cSt @ 40°C	4.2
Average Coverage	5m <sup>2</sup> per Litre (approx)
Shelf Life (sealed container)	Minimum 12 months

## HEALTH & SAFETY

When working with rbs Bluestrike CMO suitable protective clothing, eye/face protection and gloves should be worn. For further health and safety information, please refer to the relevant Safety Data Sheet

## PACKAGING

rbs Bluestrike CMO is available in 25 and 200 Litre containers.

## STORAGE

rbs Bluestrike CMO should be stored under dry, frost-free conditions away from direct sunlight, under such conditions the shelf life is at least twelve months.

## IMPORTANT NOTE

Whilst all reasonable care is taken in compiling technical data on the Company's products, all recommendations or suggestions regarding the use of such products are made without guarantee, since the conditions of use are beyond the control of the Company.

It is the responsibility of the customer to satisfy himself that each product is fit for the purpose for which he intends to use it, that the actual conditions of use are suitable, and that in the light of our continual research and development programme the information relating to each product has not been superseded.
