## 4.1. Description of first aid measures

In the event of exposure by inhalation :

In case of massive inhalation, remove patient to fresh air, keep warm and at rest.

If you feel unwell or if symptoms develop, seek medical advice.

#### In the event of splashes or contact with eyes :

Wash thoroughly with water for 15 minutes holding eyelids apart.

If there is any pain, redness or visual impairment, consult an ophthalmologist.

## In the event of splashes or contact with skin :

In the event of an allergic reaction, seek medical attention. Remove impregnated clothing and wash skin thoroughly with soap and water or use a known cleaner.

#### SAFETY DATA SHEET (REGULATION (EC) n° 1907/2006 - REACH) CRYLANE - CRYL

If the contaminated area is widespread and/or there is damage to the skin, a doctor must be consulted or the patient transferred to hospital. Wash contaminated clothing before it is reused.

## In the event of swallowing :

For small quantities, rinse the mouth with water and seek medical advice. For large quantities, do not allow the person to drink, do not cause the person to vomit. Transfer the person to a hospital and show the product label or this material safety data sheet to the medical staff on duty.
