Conforms to Regulation (EC) No. 1907/2006 (REACH), Annex II, as amended by Regulation (EU) No. 2015/830. - United Kingdom (UK)

SAFETY DATA SHEET

Monomix WS

SECTION 1: Identification of the substance/mixture and of the company/ undertaking

1.1 Product identifier

Product name

: Monomix WS

1.2 Relevant identified uses of the substance or mixture and uses advised against

Identified uses		
Professional application of coatings and inks		
Uses advised against	Reason	
All Other Uses		

1.3 Details of the supplier of the safety data sheet

Flexcrete Technologies Ltd. Tomlinson Road Leyland Lancashire, United Kingdom PR25 2DY	
Tel: +44(0)1772 450950	
e-mail address of person responsible for this SDS <u>National contact</u>	: sdsfellinguk@akzonobel.com
1.4 Emergency telephone nu	nber
National advisory body/Pois	on Centre (For use only by licensed medical professionals.)
Telephone number	: +44 (0)344 892 0111 (UK) +353 (0)1 809 2566 (Eire)
<u>Supplier</u>	
Telephone number	: +44 (0)191 469 6111 (24H)

SECTION 2: Hazards identification

2.1 Classification of the substance or mixture

Product definition : Mixture

Classification according to Regulation (EC) No. 1272/2008 [CLP/GHS]

Skin Irrit. 2, H315 Eye Dam. 1, H318 Skin Sens. 1, H317 STOT SE 3, H335

The product is classified as hazardous according to Regulation (EC) 1272/2008 as amended.

See Section 16 for the full text of the H statements declared above.

See Section 11 for more detailed information on health effects and symptoms.

2.2 Label elements

AkzoNobel

SECTION 2: Hazards identification

Hazard pictograms	
Signal word	: Danger
Hazard statements	: Causes serious eye damage. Causes skin irritation. May cause an allergic skin reaction. May cause respiratory irritation.
Precautionary statements	
General	: Not applicable.
Prevention	: Wear protective gloves. Wear eye or face protection. Use only outdoors or in a well-ventilated area.
Response	: IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF ON SKIN: Take off contaminated clothing and wash it before reuse. IF IN EYES: Immediately call a POISON CENTER or physician.
Storage	: Store locked up.
Disposal	: Dispose of contents and container in accordance with all local, regional, national and international regulations.
Hazardous ingredients	: Cement, portland, chemicals
Supplemental label elements	:
	Wear appropriate respirator when ventilation is inadequate.
Annex XVII - Restrictions on the manufacture, placing on the market and use of certain dangerous substances, mixtures and articles	: Not applicable.

2.3 Other hazards		
Other hazards which do	:	None known.
not result in classification		

SECTION 3: Composition/information on ingredients

3.2 Mixtures	: Mixture				
Product/ingredient name	Identifiers	% by weight	<u>Classification</u> Regulation (EC) No. 1272/2008 [CLP]	Nota (s)	Туре

SECTION 3: Composition/information on ingredients

Index: 007-010-00-4	Eye Irrit. 2, H319 Aquatic Acute 1, H400 (M=1)	
	See Section 16 for the full text of the H statements declared above.	

XInternational.

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment, are PBTs or vPvBs or have been assigned a workplace exposure limit and hence require reporting in this section.

Туре

[1] Substance classified with a health or environmental hazard

[2] Substance with a workplace exposure limit

[3] Substance meets the criteria for PBT according to Regulation (EC) No. 1907/2006, Annex XIII

[4] Substance meets the criteria for vPvB according to Regulation (EC) No. 1907/2006, Annex XIII

[5] Substance of equivalent concern

Occupational exposure limits, if available, are listed in Section 8.

SECTION 4: First aid measures

4.1 Description of first aid measures

General	: In all cases of doubt, or when symptoms persist, seek medical attention. Never give anything by mouth to an unconscious person. If unconscious, place in recovery position and seek medical advice.
Eye contact	: Check for and remove any contact lenses. Immediately flush eyes with running water for at least 15 minutes, keeping eyelids open. Seek immediate medical attention.
Inhalation	: Remove to fresh air. Keep person warm and at rest. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. Seek medical attention.
Skin contact	: Remove contaminated clothing and shoes. Wash skin thoroughly with soap and water or use recognised skin cleanser. Seek medical attention if irritation persists. Do NOT use solvents or thinners.
Ingestion	: If swallowed, seek medical advice immediately and show the container or label. Keep person warm and at rest. Do NOT induce vomiting.
Protection of first-aiders	: No action shall be taken involving any personal risk or without suitable training. If it is suspected that fumes are still present, the rescuer should wear an appropriate mask or self-contained breathing apparatus. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation. Wash contaminated clothing thoroughly with water before removing it, or wear gloves.

4.2 Most important symptoms and effects, both acute and delayed

Potential acute health effect	<u>s</u>
Eye contact	: Causes serious eye damage.
Inhalation	: May cause respiratory irritation.
Skin contact	: Causes skin irritation. May cause an allergic skin reaction.
Ingestion	: Irritating to mouth, throat and stomach.
<u>Over-exposure signs/symptone signs/symptone signs/symptone signs/symptone signs/symptone signs/symptone signs</u>	oms
Eye contact	: Adverse symptoms may include the following: pain watering redness
Inhalation	: Adverse symptoms may include the following: respiratory tract irritation coughing
Skin contact	: Adverse symptoms may include the following: pain or irritation redness blistering may occur
Date of issue/Date of revision	: 11/04/2022
Version : 6	3/13

SECTION 4: First aid	neasures	
Ingestion	Adverse symptoms may include the following: stomach pains	
4.3 Indication of any immed	e medical attention and special treatment needed	
Notes to physician	Treat symptomatically. Contact poison treatment specialist immediately if la quantities have been ingested or inhaled.	arge
Specific treatments	No specific treatment.	
SECTION 5: Firefigh	ig measures	
5.1 Extinguishing media		
Suitable extinguishing media	Use an extinguishing agent suitable for the surrounding fire.	
Unsuitable extinguishing media	None known.	
5.2 Special hazards arising	n the substance or mixture	
Hazards from the substance or mixture	No specific fire or explosion hazard.	
Hazardous thermal decomposition products	Decomposition products may include the following materials: sulfur oxides metal oxide/oxides	
5.3 Advice for firefighters		
Special protective actions for fire-fighters	Promptly isolate the scene by removing all persons from the vicinity of the in there is a fire. No action shall be taken involving any personal risk or withou suitable training.	
Special protective	Fire-fighters should wear appropriate protective equipment and self-contained	ed

: Fire-fighters should wear appropriate protective equipment and self-contained Special protective equipment for fire-fighters breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode. Clothing for fire-fighters (including helmets, protective boots and gloves) conforming to European standard EN 469 will provide a basic level of protection for chemical incidents.

SECTION 6: Accidental release measures

6.1 Personal precautions, pro	ote	ctive equipment and emergency procedu	ires
For non-emergency personnel	:	No action shall be taken involving any pers Evacuate surrounding areas. Keep unnece entering. Do not touch or walk through spil Wear appropriate respirator when ventilation personal protective equipment.	essary and unprotected personnel from It material. Provide adequate ventilation.
For emergency responders	:	If specialised clothing is required to deal wi information in Section 8 on suitable and un information in "For non-emergency person	suitable materials. See also the
6.2 Environmental precautions	:	Avoid dispersal of spilt material and runoff and sewers. Inform the relevant authorities pollution (sewers, waterways, soil or air).	
6.3 Methods and material for	СС	ntainment and cleaning up	
Small spill	:	Move containers from spill area. Avoid dus HEPA filter will reduce dust dispersal. Plac labeled waste container. Dispose of via a	ce spilled material in a designated,
Large spill	:	Move containers from spill area. Approach into sewers, water courses, basements or Do not dry sweep. Vacuum dust with equip in a closed, labeled waste container. Dispo contractor.	confined areas. Avoid dust generation. pment fitted with a HEPA filter and place
Date of issue/Date of revision		: 11/04/2022	AkzoNobel
Version : 6		4/13	

SECTION 6: Accidental release measures

6.4 Reference to other sections	: See Section 1 for emergency contact information. See Section 8 for information on appropriate personal protective equipment.
	See Section 13 for additional waste treatment information.

SECTION 7: Handling and storage

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

7.1 Precautions for safe handling

Protective measures	: Put on appropriate personal protective equipment (see Section 8). Persons with a history of skin sensitization problems should not be employed in any process in which this product is used. Do not get in eyes or on skin or clothing. Do not ingest. Use only with adequate ventilation. Wear appropriate respirator when ventilation is inadequate. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.

7.2 Conditions for safe storage, including any incompatibilities

Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Store locked up. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination.

7.3 Specific end use(s)Recommendations: Not available.

Industrial sector specific : Not available. solutions

SECTION 8: Exposure controls/personal protection

:

The information in this section contains generic advice and guidance. Information is provided based on typical anticipated uses of the product. Additional measures might be required for bulk handling or other uses that could significantly increase worker exposure or environmental releases.

8.1 Control parameters

Occupational exposure limits

Product/ingredient name	Exposure limit values	
crystalline silica	EH40/2005 WELs (United Kingdom (UK), 12/2011).	
	TWA: 0.1 mg/m ³ 8 hours. Form: respirable dust	
Cement, portland, chemicals	EH40/2005 WELs (United Kingdom (UK), 12/2011).	
	TWA: 10 mg/m ³ 8 hours. Form: inhalable dust	
	TWA: 4 mg/m ³ 8 hours. Form: respirable dust	
calcium dihydroxide	EH40/2005 WELs (United Kingdom (UK), 12/2011).	
	TWA: 5 mg/m ³ 8 hours.	
procedures atmosphere or of the ventilatio protective equip the following: E the assessmen	If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiver of the ventilation or other control measures and/or the necessity to use respirato protective equipment. Reference should be made to monitoring standards, such the following: European Standard EN 689 (Workplace atmospheres - Guidance the assessment of exposure by inhalation to chemical agents for comparison wi limit values and measurement strategy) European Standard EN 14042 (Workplace the assessment of exposure by inhalation to chemical agents for comparison with limit values and measurement strategy)	

SECTION 8: Exposure controls/personal protection

atmospheres - Guide for the application and use of procedures for the assessment of exposure to chemical and biological agents) European Standard EN 482 (Workplace atmospheres - General requirements for the performance of procedures for the measurement of chemical agents) Reference to national guidance documents for methods for the determination of hazardous substances will also be required.

PNECs

No PNECs available

8.2 Exposure controls		
Appropriate engineering controls	: Use only with adequate ventilation. If user operations generate dust, fun vapour or mist, use process enclosures, local exhaust ventilation or othe engineering controls to keep worker exposure to airborne contaminants recommended or statutory limits.	r
Individual protection measu	<u>es</u>	
Hygiene measures	: Wash hands, forearms and face thoroughly after handling chemical proc before eating, smoking and using the lavatory and at the end of the work Appropriate techniques should be used to remove potentially contaminat Contaminated work clothing should not be allowed out of the workplace. contaminated clothing before reusing. Ensure that eyewash stations and showers are close to the workstation location.	ing period. ed clothing. Wash d safety
Eye/face protection	: Safety eyewear complying with an approved standard should be used wh assessment indicates this is necessary to avoid exposure to liquid splash gases or dusts. Use eye protection according to EN 166, designed to pro against liquid splashes. If contact is possible, the following protection sh worn, unless the assessment indicates a higher degree of protection: ch splash goggles and/or face shield. If inhalation hazards exist, a full-face may be required instead.	nes, mists, otect ould be nemical
Skin protection		
Hand protection	: Use chemical resistant gloves classified under Standard EN 374: Protect against chemicals and micro-organisms. Recommended: Viton® or N gloves. When prolonged or frequently repeated contact may occur, a glo protection class of 6 (breakthrough time greater than 480 minutes accord 374) is recommended. When only brief contact is expected, a glove with protection class of 2 or higher (breakthrough time greater than 30 minute according to EN 374) is recommended. The user must check that the fir of type of glove selected for handling this product is the most appropriate into account the particular conditions of use, as included in the user's risi assessment. NOTICE: The selection of a specific glove for a particular a and duration of use in a workplace should also take into account all relev workplace factors such as, but not limited to: Other chemicals which may handled, physical requirements (cut/puncture protection, dexterity, therm protection), potential body reactions to glove materials, as well as the ins specifications provided by the glove supplier. Barrier creams may help to the exposed areas of the skin but should not be applied once exposure h occurred.	litrile by e with a ding to EN a es hal choice e and takes k application vant y be hal structions/ o protect
Body protection	: Personal protective equipment for the body should be selected based on being performed and the risks involved and should be approved by a spe before handling this product.EN ISO 13688	
Other skin protection	: Appropriate footwear and any additional skin protection measures should selected based on the task being performed and the risks involved and s approved by a specialist before handling this product.	
Date of issue/Date of revision Version : 6	: 11/04/2022 Akzo	Nobel

SECTION 8: Exposure controls/personal protection

Respiratory protection	: Use a properly fitted, particulate filter respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.
Environmental exposure controls	: Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.

SECTION 13: Disposal considerations

The information in this section contains generic advice and guidance. The list of Identified Uses in Section 1 should be consulted for any available use-specific information provided in the Exposure Scenario(s).

13.1 Waste treatment methods

<u>Product</u>	
Methods of disposal	 The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction.
Hazardous waste	: The classification of the product may meet the criteria for a hazardous waste.
European waste catalog	ue (EWC)

SECTION 13: Disposal considerations

	Code number	Waste designation
	EWC 17 01 06*	mixtures of, or separate fractions of concrete, bricks, tiles and ceramics containing hazardous substances
P	ackaging	
	Methods of disposal	 Dispose of containers contaminated by the product in accordance with local or national legal provisions. This material and its container must be disposed of as hazardous waste. Dispose of via a licensed waste disposal contractor.
S	pecial precautions	: This material and its container must be disposed of in a safe way. Care should be taken when handling emptied containers that have not been cleaned or rinsed out. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

SECTION 14: Transport information

Notice to reader

IMPORTANT NOTE: the information contained in this data sheet (as may be amended from time to time) is not intended to be exhaustive and is presented in good faith and believed to be correct as of the date on which it is prepared. It is the user's responsibility to verify that this data sheet is current prior to using the product to which it relates.

Persons using the information must make their own determinations as to the suitability of the relevant product for their purposes prior to use. Where those purposes are other than as specifically recommended in this safety data sheet, then the user uses the product at their own risk.

MANUFACTURER'S DISCLAIMER: the conditions, methods and factors affecting the handling, storage, application, use and disposal of the product are not under the control and knowledge of the manufacturer. Therefore the manufacturer does not assume responsibility for any adverse events which may occur in the handling, storage, application, use, misuse or disposal of the product and, so far as permitted by applicable law, the manufacturer expressly disclaims liability for any and all loss, damages and/or expenses arising out of or in any way connected to the storage, handling, use or disposal of the product. Safe handling, storage, use and disposal are the responsibility of the users. Users must comply with all applicable health and safety laws.

Unless we have agreed to the contrary, all products are supplied by us subject to our standard terms and conditions of business, which include limitations of liability. Please make sure to refer to these and / or the relevant agreement which you have with AkzoNobel (or its affiliate, as the case may be). © AkzoNobel
