

# Sarnafil® T Prep

## Seam preparation and cleaner for Sarnafil® T

### Product Description

Mixture of organic solvents

### Uses

Sarnafil® T Prep is used to prepare seams of Sarnafil® TG/TCG and TS/TCS in order to ensure optimum seam quality.  
Sarnafil® T Prep is also suitable as general purpose cleaner to remove light dirt or bitumen residue from Sarnafil® TG/TCG and TS/TCS.

### Characteristics / Advantages

- Ensures optimum seam quality
- Dissolves surface dirt
- Evaporates quickly
- Highly flammable

### Tests

#### Approvals / Standards

- Quality management system EN ISO 9001

### Product Data

#### Form

#### Consistency

liquid

#### Colour

yellow

#### Packaging

Canister: 5 l, 10 l  
Packing unit: Europallet or single canister

### Storage

#### Storage Conditions

Store in dry conditions at temperatures between 0 °C and +30 °C

#### Shelf-Life

24 months from date of production if stored properly in original, unopened and undamaged sealed canister. Expiry date on canister.

### Technical Data

#### Chemical Basis

Mixture of organic solvents

#### Density

0.87 kg/l (+20 °C)

## System Information

### Processing Requirements / Limits

<b>Ambient Temperature</b>	At least -20 °C
----------------------------	-----------------

<b>Substrate Temperature</b>	At least -30 °C
------------------------------	-----------------

<b>Limits</b>	Avoid contact to materials that are not resistant to solvents.
---------------	--

### Processing

<b>Application Guideline</b>	Based on the valid installation instructions of the relevant roof waterproofing membrane.
------------------------------	---

<b>Application Method</b>	Prepare seam areas using a white clean cloth soaked with Sarnafil® T Prep. Allow Sarnafil® T Prep to evaporate completely before welding. During seam preparation or cleaning the cloths should be changed frequently to avoid the spreading of dirt.
---------------------------	---

<b>Notes of Application / Limits</b>	White cloths will effectively absorb dirt and the colour will not stain the membrane. Use solvent resistant gloves and eye protection glasses during application. Sarnafil® T Prep contains high volatile and flammable solvents. Application in closed rooms is allowed only with sufficient room ventilation. Smoking and open fire are not permitted.
--------------------------------------	--

**Value Base**

All technical data stated in this Product Data Sheet are based on laboratory tests. Actual measured data may vary due to circumstances beyond our control.

---

**Local Restrictions**

Please note that as a result of specific local regulations the performance of this product may vary from country to country. Please consult the local Product Data Sheet for the exact description of the application fields.

---

**Health and Safety Information**

For information and advice on the safe handling, storage and disposal of chemical products, users shall refer to the most recent Material Safety Data Sheet containing physical, ecological, toxicological and other safety-related data.

---

All data in our product information are based on our current knowledge and experience. They do not release users from careful testing of the application and strict observation of the relevant processing regulations because of the wide range of possible influences during the application and use of our products. Legally valid assurances of specific characteristics or suitability for special purposes of application other than those provided in our documentation for the specific product cannot be inferred from our information. Any protective rights or existing laws and provisions must be followed by the recipient or processor of our products at their own responsibility. Moreover our general terms and conditions of sale and guarantee are valid.
