

Description

rbs Bluewash is a powerful blend of solvents for the removal of polysulphide sealants from mastic guns. rbs Bluewash can also be used as a general purpose cleaning solvent.

Advantages

- Powerful and effective - the powerful and effective dissolving action will rapidly remove heavy deposits of polysulphide sealants from mastic guns.
- Economic - concentrated strength and high solvency rate ensures only a small amount will remove a high level of polysulphide sealant.

Directions For Use

- Gloves, goggles and protective clothing must be worn at all times when using rbs Bluewash.
- Simply apply to the part that needs cleaning and work into the polysulphide seal-ant with a cloth or similar implement.
- Leave a few minutes then rub slightly to remove the polysulphide sealant.
- Remove any residual traces with a cloth.
- Do not remove the rbs Bluewash to dry on the surface.
- Avoid prolonged contact of rbs Bluewash with painted, varnished or lacquered surfaces.

Technical Data

Appearance	Clear, colourless liquid
Specific Gravity @ 15.6c	0.855
Flash Point (PMCC)	18°C (minimum)

The information given on this sheet is, to the best of our knowledge, true and accurate. No guarantee of the results implied, or any loss or damage arising out of this material, however, are possible as the conditions of application are beyond our control. This is not withstanding any liability arising from the Consumer Protection Act 1987 and the Health & Safety at Work Act. Health and Safety data is available on this product and should be referred to prior to its use

Packaging

rbs Bluewash is available in 500ml, 5ltr & 25ltr tin plate containers.

Storage

rbs Bluewash is not affected by frost or ambient heat. Containers should be stored under cover to avoid water ingress.

Ensure rbs Bluewash is stored away from all sources of ignition and static electricity in a well ventilated area. Store out of reach of children and away from foodstuffs.

Health & Safety

When working with rbs Bluewash suitable protective clothing, eye/face protection and gloves should be worn.

Areas where this product is being applied must be well ventilated. For further health and safety information, please refer to the relevant Safety Data Sheet.
