

## DESCRIPTION

rbs Greencure Super is a spray on temporary membrane to retain moisture in freshly placed concrete.

It is formulated to prevent evaporation of the gauging water and provides an efficient method for curing concrete. Gives reduced shrinkage and cracking and creates a more durable, hard wearing surface.

## ADVANTAGES

- Reduces surface shrinkage and cracking by controlling moisture.
- Provides a strengthened concrete.
- Dustproofs.
- Non toxic and non flammable.
- No need for damp hessian or polythene.

## APPLICATION

- Always stir or shake rbs Greencure Super before use. Apply using a fine spray on-to newly placed concrete. The surface should be free from surface water.
- Coverage rate—4-6m<sup>2</sup> per litre. All equipment should be cleaned with water.
- After 28 days the film formed will begin to degrade. Rate of degradation depends on initial membrane thickness and the degree of exposure to UV light. rbs Greencure Super does not fall within the scope of BS7542:1992 but has approx a 90% curing efficiency.

## TECHNICAL DATA

Appearance	White liquid
Curing Efficiency	>90% at 6m <sup>2</sup> per litre
Specific Gravity @ 15.6°C	1.01 (approx)
Flash Point (PMCC)	>100%
Drying Time @ 20°C	Tack Free - 2 to 4 hours Hard Dry - 18 to 24 hours
Shelf Life (sealed container)	12 months minimum
Compliance	ASTM C-309, Type1, Class A&B

## HEALTH & SAFETY

When working with rbs Greencure Super suitable protective clothing, eye/face protection and gloves should be worn. Areas where this product is being applied must be well ventilated. For further health and safety information, please refer to the relevant Safety Data Sheet.

## PACKAGING

rbs Greencure Super is available in 5, 20, 25 and 200 Litre containers. IBC's available on request.

## STORAGE

rbs Greencure Super should be stored under dry, frost-free conditions away from direct sunlight, under such conditions the shelf life is at least twelve months, if unopened. Once opened replace lid immediately after use and use within 2 weeks.

## IMPORTANT NOTE

Whilst all reasonable care is taken in compiling technical data on the Company's products, all recommendations or suggestions regarding the use of such products are made without guarantee, since the conditions of use are beyond the control of the Company.

It is the responsibility of the customer to satisfy himself that each product is fit for the purpose for which he intends to use it, that the actual conditions of use are suitable, and that in the light of our continual research and development programme the information relating to each product has not been superseded.
