

*A universal solvent-based cleaner  
for removing uncured epoxy and  
polyester resins*

## webertec solvent

### About this product

A solvent used for cleaning tools and equipment used with resin-based products.

### Technical data

#### webertec solvent

Contains benzyl alcohol and Alcohols C9-11, ethoxylated.

### Uses

- Suitable for removing uncured epoxy resins
- A general-purpose cleaning solvent for epoxy and polyester resins

### Constraints:

Must not be used as a diluent for reducing the viscosity of epoxy resins.

### Features and benefits

- Fast and efficient cleaning of uncured resins from tools and equipment.
- Supplied in UN-approved containers.

## webertec solvent

### Cleaning

All equipment should be cleaned, preferably by soaking overnight followed by wiping thoroughly with a clean cloth or brush.

### Packaging

**webertec solvent** is supplied in 5 litre metal containers.

### Storage and shelf life

Store in well ventilated conditions away from sunlight or sources of ignition in conditions between 5 and 40°C.

Ensure the container is kept well sealed.

Shelf life of unopened container in correct storage conditions is up to 12 months.

### Health and safety

**For further details on safe handling, please refer to the relevant Safety Data Sheet for the product.**

#### Technical services

**Weber's** Customer Services Department has a team of experienced advisors available to provide on-site advice both at the specification stage and during application. Detailed specifications can be provided for specific projects or more general works. Site visits and on-site demonstrations can be arranged on request.
