

PURTOP EASY

Ready to use liquid
waterproofing for
roofs and balconies

Mapei **Purtop Easy**, a ready-to-use polyurethane product for waterproofing in just one single coat* – can be used to waterproof balconies, roofs, and terraces. **The BBA Certificate 23/7057 confirms that Purtop Easy achieves a classification of BROOF(t4) under BS EN 13501-5 : 2005 and it has a service life of at least 25 years.** The high elasticity and excellent bond-strength to substrates makes it ideal for both new and old builds, rapidly guaranteeing a perfect waterproofing solution. The versatility also allows application with a trowel or by spray. The finish provides UV stability and slip resistance. As part of **Mapei** support we offer detailed project specifications.

RESISTANT TO LOW
AND HIGH
TEMPERATURES
(from -40° C to +80° C)

RESISTANT
TO PONDING
WATER

RESISTANT TO
PEDESTRIAN
TRAFFIC

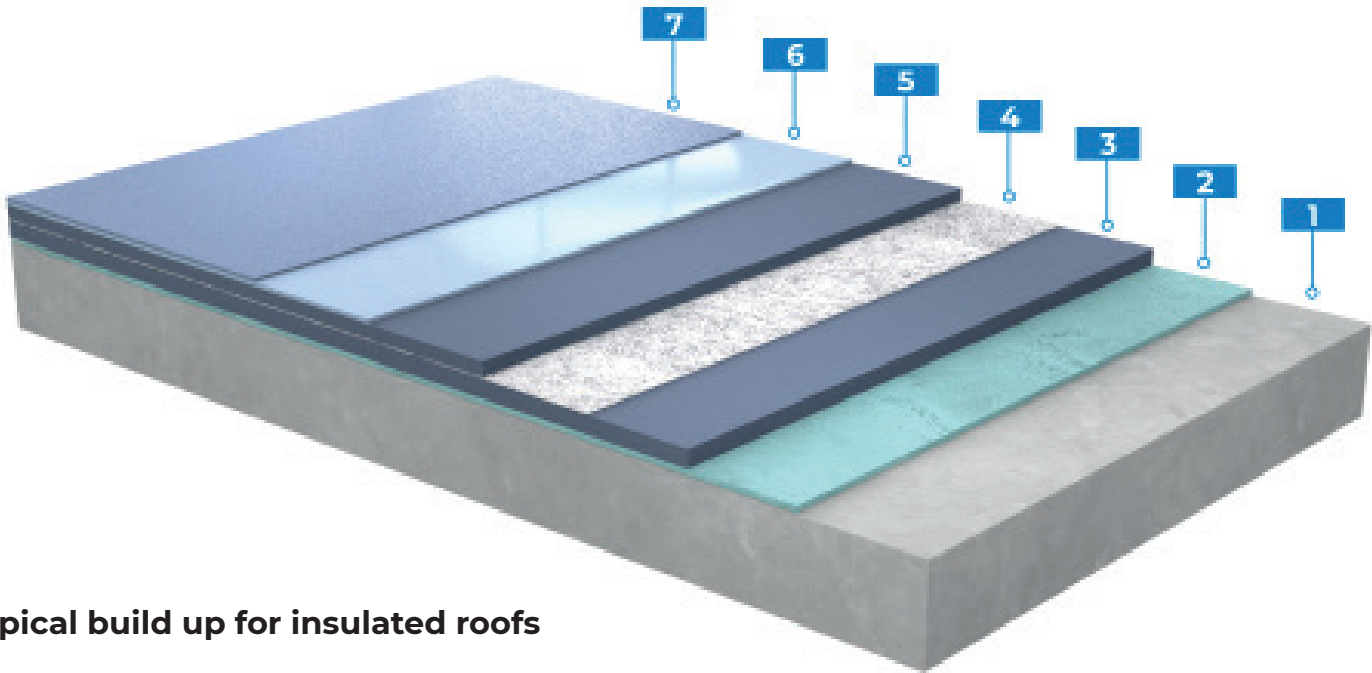

PERFECT
ADHESION TO
THE SUBSTRATE

Product	Description
Purtop Easy	One-component polyurethane, elastic waterproof membrane
Mapetex FG	Glass fibre reinforcing matting for Purtop Easy
Additix P	Thixotropic agent added to Purtop Easy for vertical and sloping applications
Purtop ADY	Admixture added to Purtop Easy to allow single coat application
Purtop Primer FT	Two-component, ultra-rapid primer for Purtop Waterproofing Systems
Mapecoat I 600 W	Two-component, epoxy resin based coating/primer for bitumen based substrates
Primer EP4 Fast	Two-component solvent-free epoxy primer for damp substrates
Primer SN	Two-component primer for cementitious and timber substrates
Primer EP 100 W	Solvent free water-based primer for metallic surfaces
Primer EP Rustop	Primer for metallic surfaces, helps prevent and impede the formation of rust
Mapecoat PU 20 N	Two-component aliphatic coloured polyurethane finish for Purtop Easy
Mapecoat Filler	Filler aggregate for adding to Mapecoat PU 20 N to provide slip resistance

* when used with **Purtop ADY**

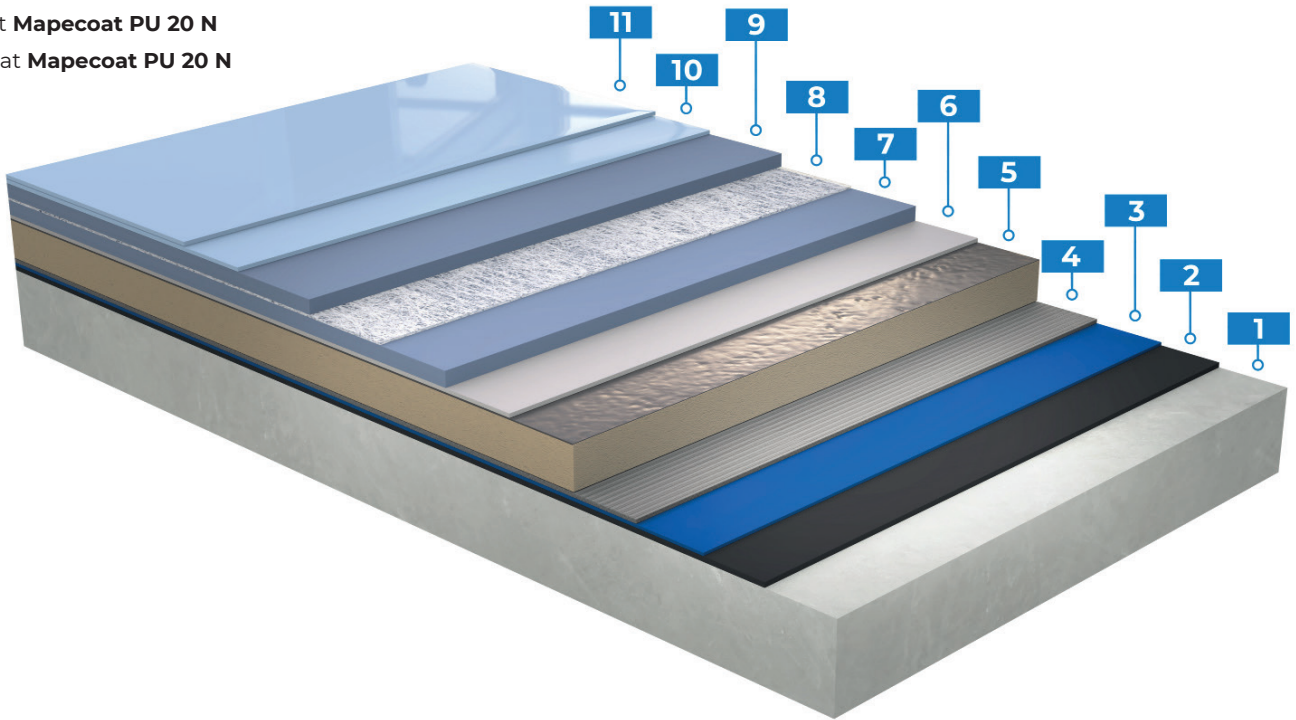

Typical build up for roof and balconies

- 1 Substrate - cementitious, bituminous membrane, tiling or existing sound coating
- 2 Primer dependant on substrate
- 3 1st coat **Purtop Easy**
- 4 1st coat **Mapetex FG** reinforcement fabric embedded in 1st coat of **Purtop Easy**
- 5 2nd coat **Purtop Easy**
- 6 1st coat **Mapecoat PU 20 N**
- 7 2nd coat **Mapecoat PU 20 N** mixed with **Mapecoat Filler** for slip resistance

Typical build up for insulated roofs

- 1 Deck
- 2 Polyprimer HP45 professional primer
- 3 Adeso Polyvap SA P-AL or AluSAM 080 (AVCL)
- 4 Adepur Mono Adhesive
- 5 Insulation
- 6 Adeso Polyvap SA P-AL Sanded Finish primed with Mapecoat I 600 W
- 7 1st coat **Purtop Easy**
- 8 **Mapetex FG** reinforcement fabric embedded in 1st coat of **Purtop Easy**
- 9 2nd coat **Purtop Easy**
- 10 1st coat **Mapecoat PU 20 N**
- 11 2nd coat **Mapecoat PU 20 N**
