

rbs Eco-Cure Wax

Description

rbs Eco-Cure Wax is a white, water based low viscosity wax emulsion, which when spray applied to the surface of fresh concrete forms a clear film on drying. rbs Eco-Cure Wax will greatly increase concrete curing efficiency, by retaining moisture, enhancing cement hydration thus providing a stronger, more durable concrete. Suitable for all concreting particularly for large areas, floors & carriageways.

Advantages

- Significantly improved curing of concrete.
- · Water based, non-flammable.
- Provides a stronger, more durable concrete.
- Exceeds the 90% curing efficiency index (in-house test).
- Spray application, reduces labour costs.
- Single component, i.e. no mixing involved.

Directions For Use

- rbs Eco-Cure Wax is supplied as a ready to apply product using spray equipment producing a fine mist without damaging the emulsion.
- Spray equipment suitability should be trialed before full application.
- The recommended coverage rate is 4.0 to 5.0 m²/ litre.
- rbs Eco-Cure Wax must be removed from the concrete surface before application of a subsequent coating.
- rbs Eco-Cure Wax will be slowly removed by everyday foot traffic. To ensure complete removal use water jet, high pressure steam or light sand blasting.

Packaging

rbs Eco-Cure Wax is available in a 20 litre container.

The information given on this sheet is, to the best of our knowledge, true and accurate. No guarantee of the results implied, or any loss or damage arising out of this material, however, are possible as the conditions of application are beyond our control. This is not withstanding any liability arising from the Consumer Protection Act 1987 and the Health & Safety at Work Act. Health and Safety data is available on this product and should be referred to prior to its use

Storage

rbs Eco-Cure Wax should be stored under dry, frostfree conditions away from direct sunlight, under such conditions the shelf life is at least twelve months.

Technical Data

Appearance	Low viscosity clear amber liquid
Specific Gravity @ 15.6°C	0.969
Flash Point (PMCC)	N/A
Viscosity cSt @ 40°C	2.204
Coverage	4-5m² per litre
Recommended Dilution	None required

Health & Safety

When working with rbs Eco-Cure Wax suitable protective clothing, eye/face protection and gloves should be worn. For further health and safety information, please refer to the relevant Safety Data Sheet.

Important Note

Whilst all reasonable care is taken in compiling technical data on the Company's products, all recommendations or suggestions regarding the use of such products are made without guarantee, since the conditions of use are beyond the control of the Company.

It is the responsibility of the customer to satisfy themselves that each product is fit for the purpose for which they intend to use it. Ensure that the actual conditions of use are suitable, and that in the light of our continual research and development programme, the information relating to each product has not been superseded.
