

Technology-Specific Adjustments – Effective 1st June 2026

In addition to the technology-specific price increases implemented on 1st May 2026, we will be applying further targeted increases to selected product ranges effective 1st June 2026, as a result of continued and verified cost escalation.

For clarity:

- These June adjustments are applied to prices already increased on 1st May 2026
- They are applicable to deliveries on or after 1st June 2026
- The 4% surcharge will continue to apply in addition to these adjusted prices

A summary of the applicable increases effective from 1st June is set out below.

| Waterproofing | All Other Waterproofing Materials | 1.5% |

| | | |
|---------------|-----------|----|
| Waterproofing | Waterbars | 3% |
|---------------|-----------|----|

Ongoing monthly review

As previously communicated, both surcharge levels and technology-specific pricing will continue to be reviewed on a monthly basis. Where changes are required, we will provide a minimum of ten days' notice prior to implementation.

While this review mechanism remains necessary due to ongoing market volatility, our approach remains focused on applying adjustments only where supported by verified cost movements, and ensuring changes are proportionate and transparent.

Our Commitment

We recognise the challenges that this environment presents and want to reassure you that we remain committed to:

- Maintaining continuity of supply
- Applying pricing adjustments in a fair and structured manner
- Communicating clearly and with appropriate notice

As previously requested, we kindly ask customers to avoid excessive or forward ordering outside normal demand patterns, as this places additional pressure on supply chains and product availability.

We appreciate your understanding and continued partnership during this period. For further support or clarification, please contact your local Account Manager.

Our thoughts continue to be with those affected by the ongoing events in the Middle East.
